EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William Gehris on 7/11/2006.

2. The application has been amended as follows:

- Claim 2 has been canceled.
- In claim 1, line 3, after "body" --, the at least one processing tool having a working surface for effecting a physical change in the printing substrate-- has been inserted.
- In claim 1, line 5, after "force" --, wherein the magnetizable coating is an electroplating-- has been inserted.

3. The above changes have been made in order to patentably distinguish the claims above the prior art of record.

4. The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of claim 1 is the limitation of at least one processing tool accommodated on the rotatable carrier where the processing tool has a working surface for effecting a physical change in the printing substrate, the carrier body

having a magnetizable coating being an electroplating, in combination with the other claimed language.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
